

IDENTIFYING INFORMATION:

NAME: Rezaali, Mostafa

ORCID iD: <https://orcid.org/0000-0001-6587-1569>

POSITION TITLE: GRA

PRIMARY ORGANIZATION AND LOCATION: University of Florida, Gainesville, Florida, United States**Professional Preparation:**

ORGANIZATION AND LOCATION	DEGREE (if applicable)	RECEIPT DATE	FIELD OF STUDY
University of Florida, Gainesville, Florida, United States	Doctor of Philosophy (PhD) in Geography	08/2022 - 08/2026	Department of Geography
Qom University of Technology, Qom, Not Applicable, N/A, Iran	MS	09/2016 - 09/2018	Civil and Environmental Engineering
IAUKHSH, Isfahan, Not Applicable, N/A, Iran	BS	09/2011 - 02/2016	Civil and Environmental Engineering

Appointments and Positions

2022 - 2026 GRA, University of Florida, Gainesville, Florida, United States

2022 - present Graduate Research Assistant (PhD Candidate), University of Florida,
Department of Geography, Gainesville, Florida, US**Products****Products Most Closely Related to the Proposed Project**

1. Assessment of AERMOD and ADMS for NO_x dispersion modeling with a combination of line and point sources. Environmental Science and Pollution Research. 2025.
2. Rezaali M, Jahangir M, Fouladi-Fard R, Keellings D. An ensemble deep learning approach to spatiotemporal tropospheric ozone forecasting: A case study of Tehran, Iran. Urban Climate. 2024 May; 55:101950-. Available from: <https://linkinghub.elsevier.com/retrieve/pii/S2212095524001469> DOI: 10.1016/j.uclim.2024.101950
3. Rezaali M, Fouladi-Fard R, Karimi A. Performance of TANN, NARX, and GMDHT Models for Urban Water Demand Forecasting: A Case Study in a Residential Complex in Qom, Iran. Avicenna Journal of Environmental Health Engineering. 2023 December 29; 10(2):85-97. Available from: <https://ajehe.umsha.ac.ir/Article/ajehe-5283> DOI: 10.34172/ajehe.5283
4. Farajollahi M, Fahiminia M, Fouladi-Fard R, Rezaali M, Sorooshian A. Human and ecological risk assessment, geo-accumulation, and source apportionment of road dust heavy metals in a

semi-arid region of central Iran. International Journal of Environmental Analytical Chemistry. 2022 November 21; 104(18):6495-6518. Available from:
<https://www.tandfonline.com/doi/full/10.1080/03067319.2022.2147426> DOI:
10.1080/03067319.2022.2147426

5. Role of humidity in heat wave dynamics and trends: A global perspective. Science of the Total Environment. 2024. DOI: 10.1016/j.scitotenv.2024.178397

Other Significant Products, Whether or Not Related to the Proposed Project

Certification:

I certify that the information provided is current, accurate, and complete. This includes, but is not limited to, information related to current, pending, and other support (both foreign and domestic) as defined in 42 U.S.C. § 6605.

In accordance with Section 10632 of the CHIPS and Science Act of 2022 (42 U.S.C. § 19232), each individual identified as a senior/key person must certify that they are not a party to a malign foreign talent recruitment program.

Research Security Training Requirement for Federal Award Personnel: In accordance with Section 10634 of the CHIPS and Science Act of 2022 (42 U.S.C. § 19234), each individual identified as a senior/key person must certify that they have completed the requisite research security training that meets the requirements specified in Item 2 of Important Notice No. 149 within 12 months prior to proposal submission.
